DRAFT

26 January 1956

### IAC WAR PLANNING

1. Each agency must plan during peacetime to meet its wartime responsibilities. CIA is currently so engaged.
2. I believe it necessary that the IAC jointly examine, for planning purposes, the impact of war upon its functions. I therefore propose the immediate establishment of an ad hoc IAC War Planning Working Group, under the chairmanship of CIA, to identify IAC war planning problems. This group should report to the IAC by 20 April 1956 in order that solutions to those war planning problems pertinent to Operation Alert 1956 may be developed in time for testing. *at the IAC meeting procedures for their solutions.*
3. This matter will be considered at the IAC meeting on \_\_\_\_\_ February 1956.

*It is requested that IAC members be prepared to name their designers to for the working group if it is approved by the IAC.*
